

GO YELLOW TO GO GREEN

Since 1972, Alban Engine Power Systems

has provided specialized solutions to meet the most complex design specifications for Electric Power Generation [EPG]. Alban offers a full range of diesel and gas engines for standby and prime generator applications. We provide complete integrated solutions to solve your power needs. Our project teams include engineering, sales and service experts - each team dedicated to your industry.

Emissions Solutions is a top priority for our customers and our environment. Alban offers several solutions to meet the increasing demand for clean air emissions. Whether it's our SCR or DPF products or our Mobile Emissions Solutions service trailer, we're here to help you keep the air clean.

Products

- Diesel Generator Sets: 5 kW to Over 10,000 kW
- Natural Gas Generator Sets: 8 kW to Over 3,500 kW
- UPS Systems: 15 kVA to Multi-Megawatt Solutions
- Cat Switchgear: 600 V to 15 kV
- Cat Automatic Transfer Switches (ATS): 40 to 4,000 Amps
- Enclosures, Racks & Accessories
- TVSS Systems
- SCADA Systems
- Emission Solutions

Alban takes pride in what we sell. We prove it with our unmatched Product Support.

Service: If a failure does occur, Alban, through our 24/7 Emergency Response Center, dispatches highly skilled responders from one of our 14 locations to bring the system back to operation quickly.

Parts: Supporting the service effort is the Alban parts system. The best in the business where 97% of all electric power systems parts are in local inventory, available the same day. The other 3% are generally available the next day through Caterpillar regional parts distribution centers.

Rental: For unexpected long term repairs, or to support your construction phasing requirements, Alban Rental Solutions offers a full line of mobile packaged generator sets and supporting auxiliaries (fuel tanks, cables, ATS, breakers etc).

Preventative Maintenance: Alban offers a comprehensive preventative maintenance program tailored to meet your demands. All this so your EPSS is ready for the next start and providing you the appropriate documentation to comply with the requirements of JCAHO and NFPA.

Alban Engine Power Systems has its roots firmly placed in the Mid-Atlantic. However, it's through our global resources as a Caterpillar dealer that we can provide the complete EPG solutions you need. Our sales, parts and service teams are ready to serve you 24 hours a day, 7 days a week.

Mobile Emissions Solutions

Alban's new Mobile Emissions Solutions Trailer is our latest addition to the list of services we provide to help you Go Green. The trailer is equipped with state-of-the-art technology to clean and test your emissions systems. While on site our technicians will inspect, clean and make necessary repairs to your SCR. We take care of everything from new parts to disposal of old parts.

Call us today to schedule a service and let us show you what it means to *Go Yellow To Go Green!*

Alban offers a fully Integrated Solution to your power requirements.

In addition to our diesel and gas generators we offer switchgear, automatic transfer switches, UPS systems and SCRs. This Integrated approach, along with our dedicated teams of engineers, sales and service experts, allows us to be your one safe source for all your power requirements. From system design to bid specs; procurement to installation; operation to maintenance -- Alban has the products and expertise to secure your power for all your critical missions.
